

JumpRoom.io

A platform for

**Team Visibility & Application Sharing
in Remote Work.**

PROBLEM FOR REMOTE/HYBRID TEAMS

It's hard to collaborate and be seen in remote work

Leads to
**lower team
visibility**

Without
shared work
**teams lose
connection**

No
connection
means
**turnover and
burnout**

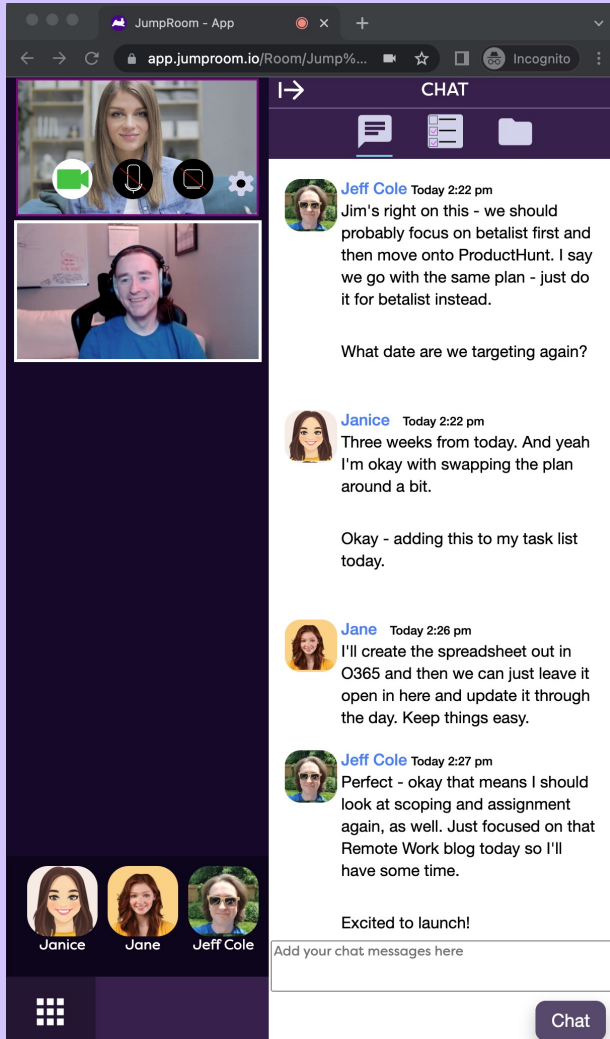

80% of the people we spoke to said:
"When the team moved from
**in-person to remote, we stopped
working together** as much outside of
meetings."

SOLUTION

JumpRoom bridges the gap in collaboration

- It's quick to setup
- Makes it simple to use any software together
- Improves team visibility and builds connection

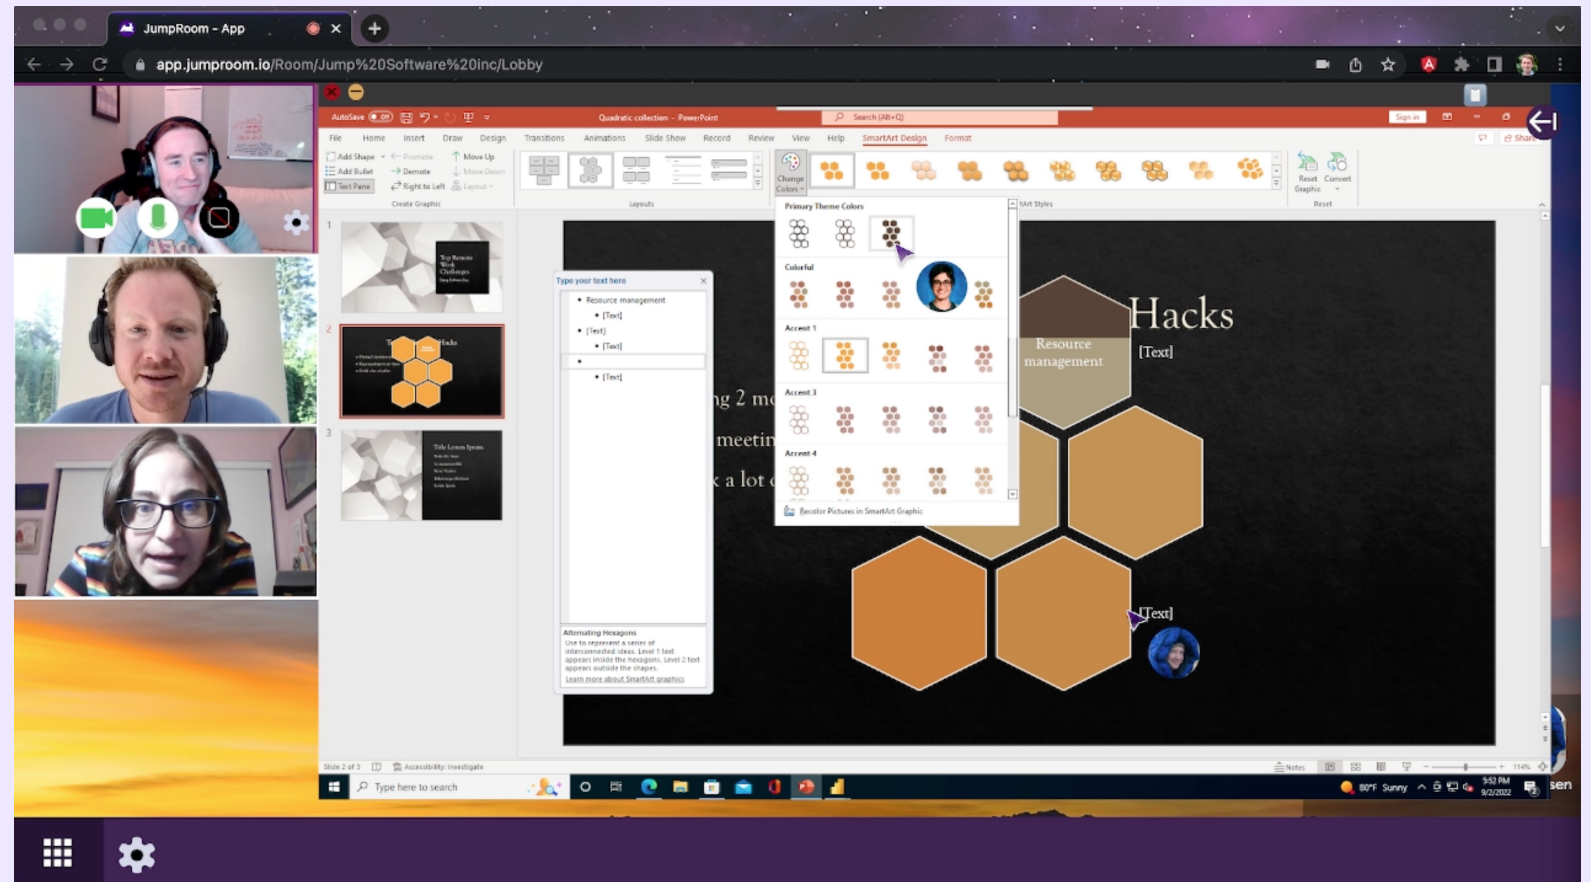

HOW WE'RE DIFFERENT

Coworking that keeps remote teams engaged

Share work
or
collaborate
side-by-side

Team
members **chat**,
share, **connect**
as needed

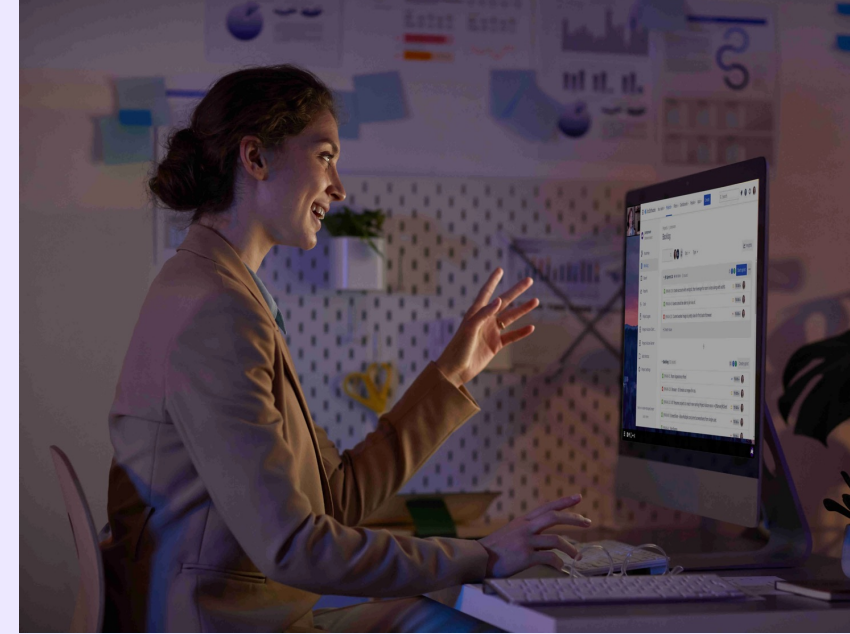

RESPONSE

Remote & hybrid teams love JumpRoom

100+ user interviews:

“Having this ability to work together and build stronger connections/morale with teammates, especially while working remote, is truly valuable.”

Over 100+
beta signups
and counting

JumpRoom.io
featured in
Ralabs blog

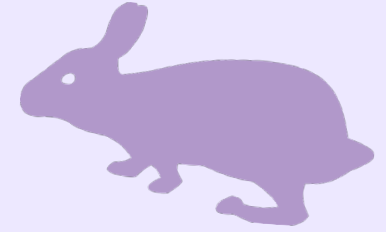

- Q4: Hire marketing partner
- Q4: Test & iterate the MVP
> 2 months with beta users
- Q4/1: Build and launch V1
of JumpRoom

BUSINESS MODEL

INVESTMENT

We're raising \$150k

For engineering and marketing, with a target of **Q1 2023 to launch JumpRoom v1** and raise our **Seed Capital.**

Together we can put visibility
and connection at the center of
collaboration for remote &
hybrid teams

THANK YOU!
